**PROJECTS**

# CAMGRAIN NAPC

**Project solution results in advanced distribution hub for the processing of milling wheat...**

## PROJECTS CAPABILITIES

To develop a technical and commercially acceptable system solution T H WHITE Projects have been able to utilise available resource from their vast depth of knowledge and experience indicated in the capability schedule.

- Land survey & study
- Conceptual phased approach
- Planning assistance / consultation
- Principal designer / contractor
- Design & build contract
- Detailed engineering solutions
- Procurement / fabrications
- Project management / documentation
- System automation & controls
- Mechanical & electrical installation
- Commissioning & handover
- After sales service & support

## MILLING WHEAT SYSTEM SOLUTION

With a well-established customer working relationship since 1983, it was T H WHITE Projects who were commissioned to design and construct the latest Camgrain APC in Kettering with 70,000 tonne available for the 2012 harvest and the following year seeing the addition of some large capacity driers to further compliment an APC including high capacity tailgate tipping intakes and importantly a fine wheat cleaning facility to meet the British Retail Consortium "Grade A" Standard. On its 48 acre site the distribution hub is designed for growth.

## SITE PROCESSING AND STORAGE FACILITIES

### 70,000t Bulk Storage

1 x 70,000 (4 x Cells)

### 12,000t Silo Storage

2 x 4600t

2 x 1400t

### Continuous Flow Driers

2 x 75tph

### Intake Pits

2 x 300tph

### Holding Silos

2 x 4600t

2 x 1400t

### Bulk Out Loading

1 x 600t

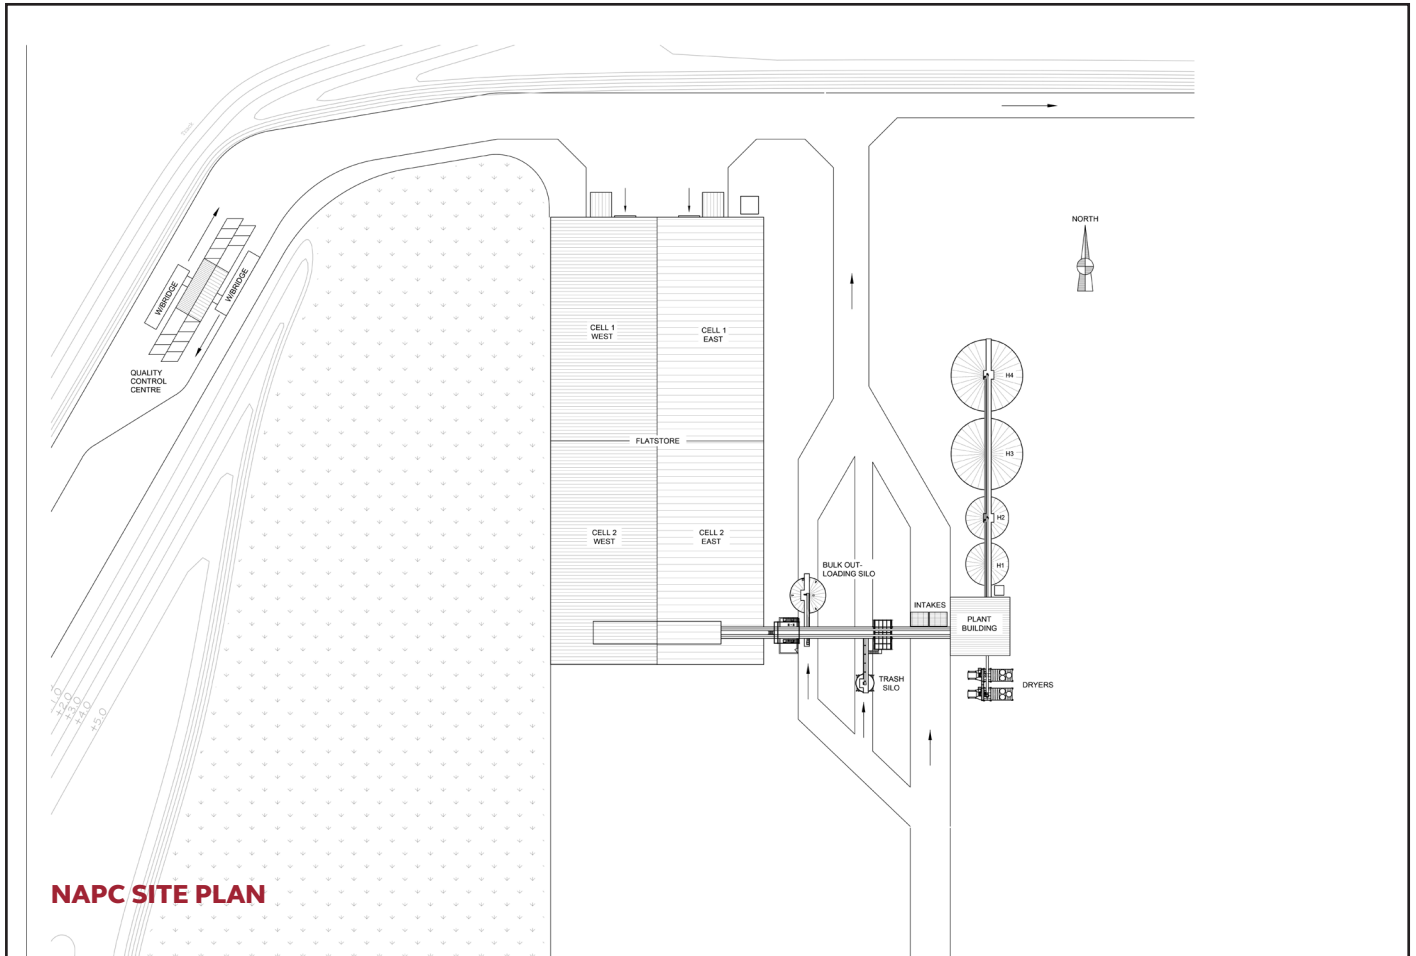

1 x Screenings Silo
