PROJECTS

FOREST OF BERE ESTATE

On site facilities prove to be a wise investment as estate gains from the visible operational benefits...

PROJECTS CAPABILITIES

To develop a technical and commercially acceptable system solution T H WHITE Projects have been able to utilise available resource from their vast depth of knowledge and experience indicated in the capability schedule.

- Land survey & study
- Conceptual phased approach
- Planning assistance / consultation
- Principal designer / contractor
- Design & build contract
- Detailed engineering solutions
- Procurement / fabrications
- Project management / documentation
- System automation & controls
- Mechanical & electrical installation
- Commissioning & handover
- After sales service & support

MODERN SOLUTION FOR ESTATE

T H WHITE Projects were awarded the contract by the Forest of Bere Estate to review its existing facilities with a view to replacing them with a modern day, fully operational arrangement suitable for the Estate's functionality. Acting as the Principal Contractor with the design layout agreed the development of two parallel sets of buildings including a 3000 tonne grain store for combinable crops and facility for farm machinery and operating equipment was successfully completed ready for the 2016 harvest.

SCOPE OF WORKS & PROJECT CONTENT...

Grain Drying & Storage

- Capacity 3000 tonne
- Combinable crops
- Size 60m x 25m wide
- 4 x 750t bunkers
- Concrete retaining walls
- Hardwood drying floors
- 2 x fans/housings
- Automated controls
- 2 x central air ducts
- 2 x grain stirrers
- Steel framed building
- Cladding juniper green
- 4 x roller shutter doors

Additional Buildings

- Open machinery area
- Chemical store
- Maintenance workshop
- Biomass boiler room
- Wood chip hopper
- Boiler feed system
- Office/control room
- Weighbridge
- Operating apron
- Surrounding access
