

CO-OPERATIVE AND CENTRAL STORAGE

HAMPSHIRE GRAIN GRAIN SILO COMPLEX

Located adjacent to the busy A303 near Micheldever Station & strategically hidden behind the surrounding trees is Hampshire Grain Limited which since its initial phase of 20,000 tonnes in 1978 has now grown to a 63,000 tonne facility designed and constructed by T H WHITE Projects.

BENEFITS OF LAND UTILISATION

Truly a flagship reference for T H WHITE Projects with this co-operative & central storage facility being one of the first to be built in the UK during 1978 and with the continued involvement of the personnel Hampshire Grain has seen a steady growth and development, resulting in an operation currently at 63,000 tonnes across the two plants offering a quality management, storage and processing of combinable crops for its membership.

SITE PROCESSING AND STORAGE FACILITIES

63,000 tonnes Total Storage

Holding Silos 3100t

- 18 x hopper silos
- Aeration/temp control

Main Storage Silos 50,000t

- 52 x silos (450 – 4000t)
- Combined 50,000t
- Sweep/auger discharge
- Aeration/temp control

Screenings Silo

- 1 x truck discharge

Flat Storage

- 2 x 5000t/1 x 2500t

Intake Pits

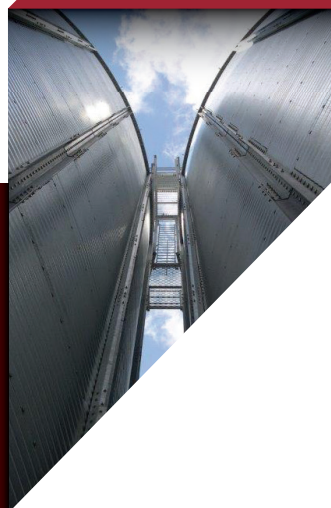

- 3 x main intakes
- 2 x secondary tips

Pre Cleaning/Cleaning

- 3 x rotary/drum
- 1 x gravity table

Continuous Flow Driers

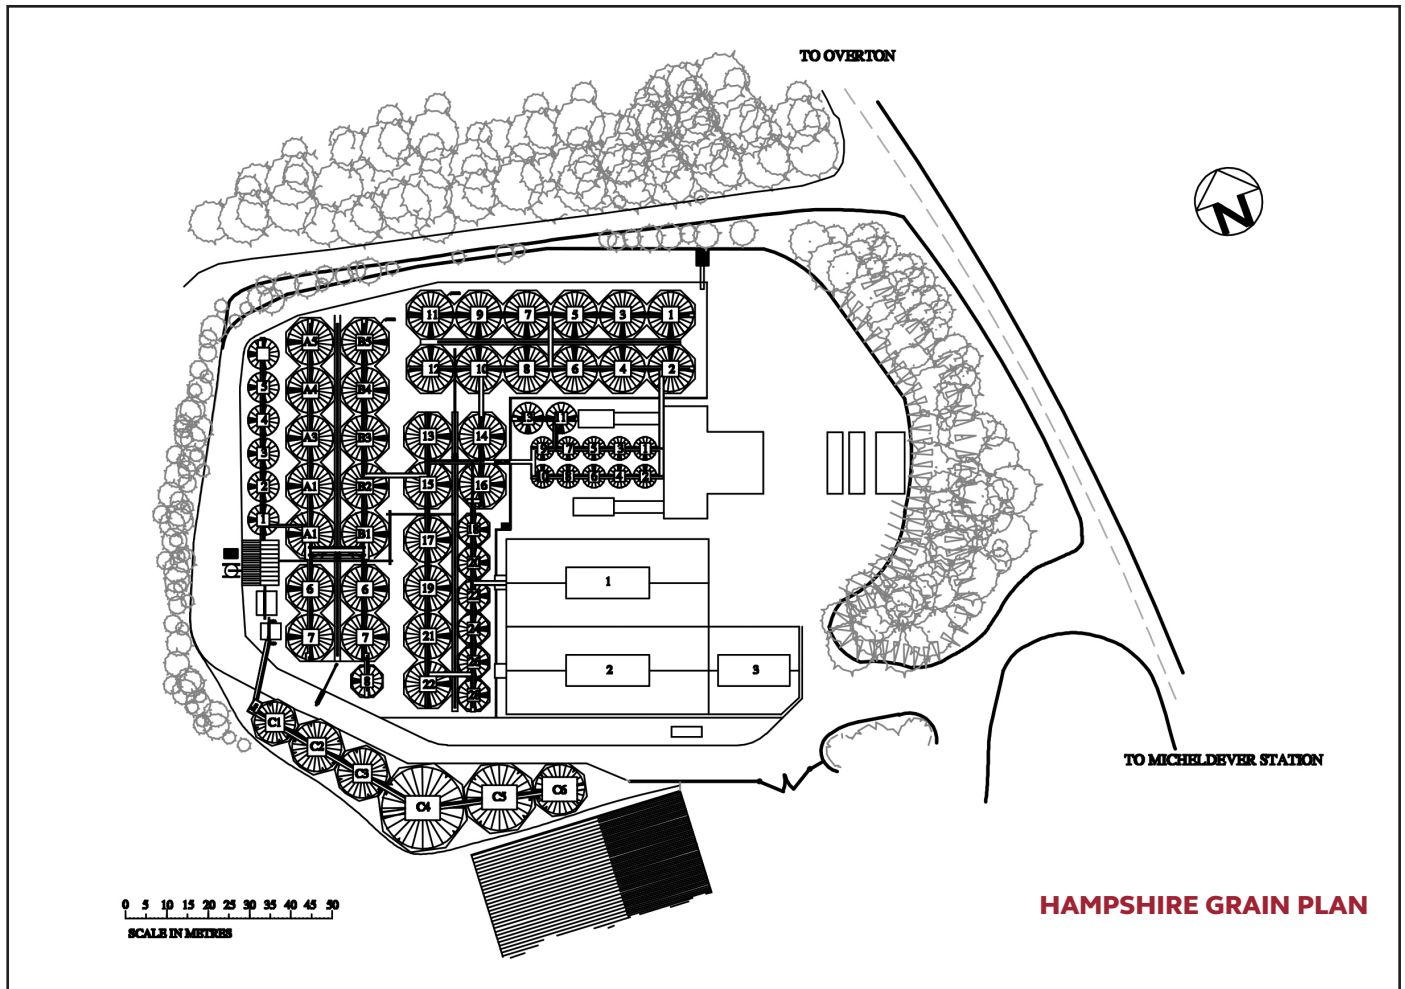

- 250tph combined
- 1 x horizontal
- 3 x vertical

Getting the best from machinery, land and buildings since 1832.
