**Phased design and construct project solution pays dividends as modern day facility comes on stream...**

## PROJECTS CAPABILITIES

To develop a technical and commercially acceptable system solution T H WHITE Projects have been able to utilise available resource from their vast depth of knowledge and experience indicated in the capability schedule .

- Land survey & study
- Conceptual phased approach
- Planning assistance / consultation
- Principal designer / contractor
- Design & build contract
- Detailed engineering solutions
- Procurement / fabrications
- Project management / documentation
- System automation & controls
- Mechanical & electrical installation
- Commissioning & handover
- After sales service & support

## SOLUTION JUSTIFIES INVESTMENT

As the Principal Contractor T H WHITE Projects completed a two phase quayside development for Angus Cereals at the Port of Montrose undertaking the design and construction of the new Grain Terminal at the mouth of the River Esk on the east coast of Scotland. Working closely in conjunction with the client and Openfield during its conception and operational specification stages, T H WHITE Projects were able to ensure that the resulting co-operative storage facility is able to capture added value in the food supply chain .

## TERMINAL PROCESSING & STORAGE FACILITIES

### Phase One – 26,000t Storage

- Bulk Store – 5 Bunkers
- 2 x 200tph Intakes
- 3 x 720t Holding Silos
- wet grain
- aeration
- 3 x Grain Driers
- high capacity
- gas fired
- 1 x Screenings Silo

### Phase Two – 14,400t Storage

- Bulk Store
- 1 x 720t Holding Silo
- 1 x 150t Bulk Loading Silo

### Phase Three - Future

- Provisions in design for ..
- 36,000t Storage
- 2 x Grain Driers
- 1 x Bulk Loading Silo
