CAPABILITIES CONTINUE TO GROW

Originally built in the late 1970's as The Channel Grain Export Terminal in Portslade and then operated by Saxon Storage over a considerable period , the change of ownership in 2004 to Bartholomews saw the move towards Shoreham Silo Services as the operator of the Grain Processing Facility within the Port . Over the life of the Terminal it has seen continued growth and upgrading with the involvement of T H WHITE Projects including the more recent investment in 2012 of the new Bulk Store.

TERMINAL PROCESSING & STORAGE FACILITIES

21,000t Bulk Store

Single Span Portal
60 x 66m / Bunkers
Retaining Grain Doors
Ventilated / Pedestals
Automated Filling

2000t Holding Silos

5 x 7m Diameter
- aeration

11,000t Storage Silos

4 x 14.6m Diameter
Aeration / Sweeps

Road Intake System

250/300tph Handling

Vertical Column Drier

High Capacity

Cleaning /Dust extraction

Within Process

Shipping Tower – 300tph

High Capacity
Support Structure
Accurate Weighing
Telescopic Spout
