

CO-OPERATIVE AND CENTRAL STORAGE

FENGRAIN GRAIN SILO COMPLEX

At Wimblington , March in the Fens of Cambridgeshire is located Fengrain Limited which since its initial build during the mid-1980's has seen it grow and expand into a fully functional operating facility of 100,000 tonnes under the design and construction support of T H WHITE Projects.

T H WHITE
PROJECTS

FENGRAIN

Strategic investment and growth upgrades with an eye on the future proves to be a good solution...

PROJECTS CAPABILITIES

To develop a technical and commercially acceptable system solution T H WHITE Projects have been able to utilise available resource from their vast depth of knowledge and experience indicated in the capability schedule.

- Land survey & study
- Conceptual phased approach
- Planning assistance / consultation
- Principal designer / contractor
- Design & build contract
- Detailed engineering solutions
- Procurement / fabrications
- Project management / documentation
- System automation & controls
- Mechanical & electrical installation
- Commissioning & handover
- After sales service & support

OPERATIONAL EFFICIENCY IN SYSTEM DESIGN

Working closely with T H WHITE Projects over the past 30 years the Fengrain co-operative & central storage facility at Wimblington in Cambridgeshire has grown to an impressive 100,000 tonne operation with investment and upgrades on a design and construct basis aimed at achieving a low cost efficient storage solution with quality grain sampling and stock management resulting in a facility capable of storing, drying and processing various combinable crops.

SITE PROCESSING AND STORAGE FACILITIES

100,000 Tonnes Combined Storage

- hopper holding silos
- flat bottom storage silos
- silos 40 off (500 – 4500t)
- bulk flat storage
- bulk out loading silos

Grain Intake/Handling

- multiple tip points
- rapid turn around
- capacity 150 to 350tph
- dust extraction

Pre Cleaning

- rotary/drum
- grader
- aspiration

Continuous Flow Driers

- multiple on site
- vertical column

Material Management

- 2 x weighbridges
- sophisticated sampling
- laboratory testing
- varietal segregation

Getting the best from machinery, land and buildings since 1832.
